

**Conference for Food Protection
2020 Issue Form**

Issue: 2020 I-009

Council Recommendation: Accepted as Submitted _____ Accepted as Amended _____ No Action _____

Delegate Action: Accepted _____ Rejected _____

All information above the line is for conference use only.

Issue History:

This is a brand new Issue.

Title:

Condition Control Food

Issue you would like the Conference to consider:

The term "Condition Control Food" or "CCF" to be used as an equivalent or replacement term for describing "Time/temperature control for safety food" or "TCS."

Public Health Significance:

Improved communications.

Communicating the importance and differences between CCF and non-CCF is improved based on anecdotal field reports in Montana. Our agency believes these reports could be duplicated on a larger scale if the term is adopted. CCF represents the many conditions needed to ensure safe food by controlling pH level to water activity, cold-hold storage and any other relevant condition required to produce safe food.

Recommended Solution: The Conference recommends...:

The Conference recommends a letter be sent to FDA requesting that the term "Condition Control Food" or "CCF" to be used as an equivalent or replacement term for describing "Time/temperature control for safety food" or "TCS."

Submitter Information 1:

Name: Jeff Havens
Organization: MT DPHHS FCS
Address: 1400 Broadway Street C214P.O. Box 2029511
City/State/Zip: Helena, MT 59620-2951
Telephone: 406.444.5302
E-mail: jhavens@mt.gov

Submitter Information 2:

Name: Ed Evanson
Organization: MT DPHHS FCS
Address: 1400 Broadway Street C214P.O. Box 2029511
City/State/Zip: Helena, MT 59620-2951
Telephone: 406.444.5309
E-mail: eevanson@mt.gov

It is the policy of the Conference for Food Protection to not accept Issues that would endorse a brand name or a commercial proprietary process.
