Dear Kevin,

On behalf of the Executive Board and the entire membership of the Conference for Food Protection, please accept our gratitude for the masterful work you did translating our Issues Committee's vision for online submission into reality. The program you designed has changed the way we do business by leaps and bounds. No longer does the office have to deal with a multitude of Issue-related personal emails and snail-mail; no longer do the members have to "write legibly," and no longer does the committee have to pull a couple of week's of all-nighters just to get through all of the Issue submissions in time for the various constitutional deadlines they have to meet. For this alone, you deserve our recognition.

Those who worked with you directly had nothing but praise for your professionalism, your availability and your patience with their many questions. Your expertise is far beyond any that we could have provided from our membership. Your generosity as well as that of Dr. Linton and Purdue University will serve the Conference for many years to come.

We expect that your services will most likely not be available to us forever, but please know that the work you have provided to date has already changed our organization in positive ways that cannot be measured. Thank you for your talent and your dedication to the Conference for Food Protection.

Sincerely,

Trevor Hayes, Executive Director
Conference for Food Protection

cc: Dr. Richard Linton
