PROTECTION

August 7, 2023

Dr. Adam Kramer  
Environmental Health Officer  
Centers for Disease Control and Prevention  
4770 Buford Hwy, NE MS: S106-6  
Atlanta, GA 30341

Dear Dr. Kramer:

A document entitled, "Crosswalk Requirements for Foodborne Illness Training Programs – Standard 5 (2021)" is currently posted on the CFP website at <http://www.foodprotect.org/guides-documents/crosswalk-requirements-for-foodborne-illness-training/>.

At the 2023 Biennial Meeting of the Conference for Food Protection, the Assembly of Delegates accepted Issue 2023-II-029 which included the following charges:

The Crosswalk references provided on the CFP website be updated by CFP to include only the most recent version to eliminate confusion. The conference also recommends that a letter be sent to FDA, NEHA and CDC requesting access to the resource documents and programs listed within the "Crosswalk - Requirements for Foodborne Illness Training Programs Based on Standard 5" be provided to CFP. It is further recommended that CFP provides access to these reference documents and programs to the Conference- Developed Guides and Documents along with the Crosswalk Requirements for Foodborne Illness Training Programs - Standard 5 on the CFP website to make them more accessible.

By way of this letter, we are asking for CDC to provide CFP access to the resource documents and programs listed within the "Crosswalk - Requirements for Foodborne Illness Training Programs Based on Standard 5". Access can be provided in the form of links to document posted on the CDC website or copies of documents as MS Word or PDF files.

Your assistance in favorable responding to our request will be greatly appreciated.

Regards,

Dr. David McSwane  
Executive Director
