

Conference for Food Protection 2006-2008
Executive Board Meeting Committee Update – Food Recovery Committee Report

Date of Committee Report: August 21, 2006

Submitted By: Lee Cornman, Council 1 Chair / Pam Williams, Council 1 Vice-Chair

Committee Charge:

The Conference recommends that based on discussion and deliberation,

Issue: 2006 I-206

... continuation of the Food Recovery Committee to finalize the Food Recovery Guidelines and submit to the Executive Board at the August meeting.

Committee Members:

Pending approval of recommended Committee Chair, Rick Barney, by the Executive Board, committee members will be selected and submitted to the Board for approval.

Progress Report/Committee Activities:

A chair for the 2006 -2008 Food Recovery Committee was approved by the Executive Board during the 2006 Conference. However, that individual has since left the organization where they were working, have not provided any contact information and have not made any contact with the Council Chair. Therefore, a new chair has been recommended to the Executive Board for approval.

Work on the committee document, Food Recovery Guidelines, is essentially done with only minor formatting and conformance language to the 2005 FDA Food Code required for completion. It is anticipated that this charge could potentially be completed by the April Board Meeting.
