Progress Report/Committee Activities:

The Inspection Form ad hoc committee held one conference call on February 2, 2005, as a follow-up to the FDA's finalization of the 2005 Food Code. Specifically, FDA requested input from the committee regarding the Demonstration of Knowledge section on the CFP inspection form and instructional guidelines. There was a discrepancy between the code provisions and instructional guidelines for this section of the Food Code.

When the changes and additions are made in the next version of the Food Code, the committee will reconvene and update the CFP inspection form, as necessary.

Requested Actions:

The Inspection Form ad hoc committee is requesting approval of the membership from the Executive Board (see above). We are proposing the addition of Geri Jones as an industry representative.
