**Progress Report/Committee Activities:**

See individual committee reports under separate cover.

## **Requested Actions for all Council II Committees:**

### **Certification of Food Safety Regulation Professionals**

#### **Sub-Committee – Workgroup 1:**

The work group is requesting that the Executive Board charge the CFP Allergen Committee with the responsibility for reviewing the content of the Allergen Management Course that is currently under development within FDA's Division of Human Resource Development. The CFP CFSRP Work Group thinks that the appropriate expertise for reviewing the content of this course lies within the CFP Allergen Committee rather than the CFSRP work group. Once the review of this course is complete, the CFP CFSRP work group is prepared to renew its deliberation as to how its fits in with the Program Standard 2 - Trained Regulatory Staff curriculum. (See committee report page 2 and 3).

Food Manager Training, Testing and Certification Committee:

Committee Chair is asking for the approval of the following new members to the Committee:

Ed Zepeda, Prometric, as one of the vacant Certification Provider member positions.

Laurie Williams, FDA, replacing Veronica Moore as a Federal Regulatory member.

Kristina Barlow, USDA, as an additional alternate to the Federal Regulatory members.

These three names and their contact information have been added onto the roster as submitted pending CFP Executive Board approval.
