Progress Report/Committee Activities:

Since the FDA Food Code has not been distributed yet, the committee has not reconvened since our last conference call. When changes and additions are made in the next version of the Food Code, the committee will update the CFP inspection form, if necessary.

Additionally, once the FDA Food Code is posted or distributed, the committee plans on holding a conference call with its members to discuss 1) polling other state health and agriculture food regulatory agencies on the use of the CFP inspection form; 2) any concerns with using the inspection form; and 3) any issues that the committee would like submitted at the next CFP conference.

Requested Actions:

The Inspection Form ad hoc committee is requesting approval of the membership from the Executive Board (see above). We are proposing the addition of Larry Edwards with the Food Marketing Institute as an industry representative.
