- Identify possible funding sources and researchers to conduct the research.
- Report the committee’s findings back to the conference at the 2010 Biennial meeting.

No changes to the committee roster have been made.

PROGRESS REPORT / COMMITTEE ACTIVITIES WITH ACTIVITY DATES:

Due to the downturn in the economy the committee lost our first researcher. Loma Linda University had to back out of their research proposal due to budgetary difficulties. However, committee member Lorna Girard recommended contacting Dr. Craig Hedberg of the University Of Minnesota School Of Public Health. Dr. Hedberg is a recognized foodborne disease epidemiologist.

Dr. Hedberg became very interested in our project and has agreed to put a proposal together. Dr. Hedberg has already found a graduate student whom is interested in working on this important research. Lorna Girard and Chuck Catlin talked with the potential researcher and she is very interested in working with our
committee. She is developing a research proposal that will accomplish the goals of the committee. The proposal is scheduled to be completed by July 27, 2009. Once the proposal is submitted the committee will review it and recommend any needed modifications. Our next conference call meeting is scheduled for August 26, 2009. Once the committee has approved the proposal we will put all our efforts at obtaining the necessary funding. In an effort to create a second research plan Liz Pozzebon and Chuck Catlin have talked with Dr. Doug Powell. Dr. Powell has stated an interest in our research goals.
