

**CFP Program Committee Notes  
October 31, 2018**

**Members present:**

Gina Kramer  
Ki Straughn  
Mary Cartagena  
Amber Daniels  
Ben Chapman  
Rich Linton

We met for 1hr via phone on October 31, 2018. During the meeting Co-chairs Ben Chapman and Rich Linton reviewed the charge for the committee, and then shared feedback and results related to surveys sent to both the program committee members and members of the CFP executive. Committee members discussed results and created the below draft agenda for the education program:

**Keynote address:**

Don Schaffner, Rutgers

Topic: How to assess food safety risks associated with new foods and new food technologies

**Morning session: New foods**

Breakout for each of the following topics organized in a round robin format:

Edible cannabis  
3-D Printed foods  
Lab-grown meats  
Edible food waste/Chef leftovers

**Afternoon session: New food techniques/technologies**

Breakout for each of the following topics organized in a round robin format:

Robotics/VR training  
Rapid pathogen testing  
Social media epidemiology: Iwaspoisoned.com, Yelp, Twitter  
Amazon using technology and algorithms for safety and quality

---

Other ideas shared by Amber after the October 31, 2018 conference call

- Edible insects- sourcing; regulations (Stumped the Feds at FDA SE conference in Oct.)
- Liquid nitrogen used as food additive- dragons breath, mixed drinks
- Charcoal ice cream
- Herb infused chocolates-
