

# Conference for Food Protection 2014 Biennial Meeting

---

## Issue Errata Sheet Updated 03/18/2014

➤ **Council I: Issue I-001**

**Issue title: Report - Plan Review Committee (PRC)**

On the Issue form under "Attachments", there are two appendix documents titled: "*Mobile Food Establishment Proposed Designed Layout.*" The first entry is correctly titled (*Appendix II*); the second entry with this title should read: "*Appendix III - Servicing Area Agreement.*" The actual attached documents are correctly titled; it is only the listing on the Issue form that is incorrect.

➤ **Council III: Issue III-017**

**Issue title: Hand Cleanse – Sanitize Protocol Not Requiring Running Water**

On the Issue form under "Attachments", the second attachment name has a typographical error and should read "*2012 JFP Edmonds.*" The actual attached document is correctly titled; it is only the listing on the Issue form that is incorrect.

➤ **Please note that there may be some documents with formatting errors when converted to Portable Document Format (PDF).**

This loss of formatting is beyond the control of the Conference for Food Protection and we apologize for the inconvenience. Documents originally submitted as Issue attachments in Microsoft Word are auto-converted within the Issue Management Program to PDF. The converted document may not appear as intended; for example, tables lose their formatting, and bullets and other special characters may be altered. **We recommend downloading and reviewing the original Word document whenever possible.**
